Dear Colleagues:

On behalf of the Alzheimer's Association, California Southland Chapter, I am pleased to offer our warm congratulations on the successes of ISESI.

Your enthusiasm and strong efforts to reach out to underserved communities is greatly needed in a linguistically and culturally rich area. ISESI gives compassionate and informative care through education dissemination and its collaborations with other organizations.

We have worked with you over the years on various events, and we look forward to future collaborations with you. Minorities with dementia and their families often do not receive adequate health services, and ISESI has provided them with a friendly gateway to accessing care, information, and assistance.

Thank you for your dedication in working with diverse seniors and their families. Your help increase awareness among the community, and the reach of your impact and influence is highly commendable.

We wish you all the best in your 4th Annual Fundraising and Award Dinner and future endeavors!

Sincerely,

Peter Braun
President and CEO
